Voter Information Request
Re: Presidential Advisory Commission on Election Integrity

Supervisor of Elections Lisa Lewis’ office has been receiving calls and emails in regards to the request for voter information from Vice Chair Kris Kobach of the Commission. The Commission is requesting information publicly available from the State of Florida.

In Florida, voter information is public record with the following exemptions, F.S. 97.0585 –
- Florida Driver License Number
- Florida Identification Card Number
- Social Security Number
- Voter’s signature
- Where a person registered

The Commission is requesting voter history also. Voter history is a list of elections a voter has participated in; not how a person votes or who they may have voted for.

I hope this will not dissuade people from registering or voting. The people of this nation are the heart of our democracy; voting is our voice.

Volusia County employees work hard both behind the scene and on the frontline to ensure every vote counts; and the integrity of the electoral process is upheld.

Should you have additional questions, please contact the Department of Elections at the numbers listed below.
