VOLUSIA CONTINUES MACHINE RECOUNT

The Volusia County Canvassing Board continues the machine recounts in the following six races:

- Edgewater City Council District 1
- Volusia County Council District 1
- State Representative District 26
- US Senator
- Governor
- Commissioner of Agriculture

“We were hoping to have the machine recounts completed yesterday. However, when comparing the results from the machine recount to the 1st unofficial results; there was a difference in the vote by mail and early voting totals. We believe the issue has been identified as procedural handling of when a jam occurs on the machine. The count may not have recorded when the jam occurred,” said, Lisa Lewis, Supervisor of Elections.

The canvassing board decided to re-tabulate both the vote by mail ballots and early voting ballots today. Recounting began at 9 am this morning and will continue as needed. Once completed, the results of the machine recount can be found on the Department of Elections website – www.volusiaelections.org.

When the second unofficial results have been submitted to the state; the Secretary of State may order a manual recount, if needed.

For more information, don’t hesitate to contact Lisa Lewis at 736-5930.
