Preparations for the Presidential Preference Primary Election March 17, 2020

Supervisor of Elections Lisa Lewis wants to assure voters precautions are being taken for the upcoming March 17 Presidential Preference Primary Election.

"We don't want voters to be afraid to go out to vote. We want both the voters and election workers to feel safe. Wash your hands before and after you vote, take precautions when visiting public places," Lewis says.

Hand sanitizers and cleaning supplies are added to the list of items being sent to polling locations this election. Paper towels and spray bottles containing 99% pure alcohol, as this can be used on all surfaces, will be sent to polling locations.

Election workers will be wiping down check-in screens, voting booths, secrecy sleeves, pens, etc. A voter may bring their own blue or black pen to vote. A voting ticket can be printed for a voter to sign rather than using the screen when checking in to vote. Voting booths will be placed further apart.

“I encourage voters and election workers to bring their own pen and their own hand sanitizer; as it will be yours and yours alone.”

Early voting is open 8am – 6pm daily through this Saturday, March 14. Voters may visit any of the locations to vote. They may also drop off their vote by mail ballots at anyone of the six locations:

**DeLand** – County Administration Building, 123 W. Indiana Ave.
**Deltona** – City Commission Chambers, 2345 Providence Blvd.
**Ormond Beach** – Ormond Beach Regional Library, 30 S. Beach St.
**Daytona Beach** – Daytona Regional Library at City Hall, 105 E. Magnolia Ave.
**Port Orange** – Port Orange Regional Library, 1005 City Center Circle
**New Smyrna Beach** – New Smyrna Beach Regional Library, 1001 S. Dixie Freeway
